UNIVERSITY

Mathematics Colloquium at Jacobs University Bremen

VLADLEN TIMORIN

(Jacobs University)

will speak on

The Volume Polynomial

Date: Monday, November 5, 2007

Time: 17:15

Place: Lecture Hall Research II, Jacobs University

Abstract:

The volume polynomial plays an important role in convex geometry and combinatorics of convex polytopes. Many of its remarkable properties were motivated by a connection to algebraic geometry. I will describe some of these properties.

Colloquium Tea at ca. 16:45 in the Tea Room of Research II, close to the lecture hall. Everybody is welcome!
